Applicant respectfully asserts that no new matter is introduced by the Submission.

REMARKS**Summary of the Office Action**

The Drawings are objected to under 37 C.F.R. § 1.83(a), as allegedly not showing every feature of the invention specified in the claims.

Claims 1, 3-15, 17, and 18 are allowed.

Summary of the Response to the Office Action

Applicant makes no amendments to the claims, but provides them as a courtesy to the Examiner.

Applicant respectfully submits herewith a Submission of Replacement Formal Drawings, as required by the *Ex Parte Quayle* Office Action.

Applicant amends the Specification to be commensurate with the required amendments to the Drawings, as well as new drawing FIG. 16.

Objection to the Drawings

The Drawings are objected to under 37 C.F.R. § 1.83(a), as allegedly not showing every feature of the invention specified in the claims. Specifically, the *Ex Parte Quayle* Office Action alleges that “the liquid crystal panel including an upper substrate, a lower substrate and a liquid crystal layer,” as recited by independent claim 1, is not shown in the Drawings. In addition, the Office Action alleges that “the control printed circuit board and a liquid crystal panel being disposed on opposite sides of the first frame,” as also recited by independent claim 1, is not shown in the Drawings. Accordingly, the *Ex Parte Quayle* Office Action requires that these two features be shown or the features canceled from the claim.

Applicant respectfully submits concurrently herewith a Submission of Replacement Formal Drawings. The Submission includes amendments to FIGs. 5 and 10, as well as new drawing FIG. 16. In the Submission, FIG. 5 is amended to show a region "B," FIG. 10 is amended to show liquid crystal panel 210, and new drawing FIG. 16 is added to clearly show the liquid crystal panel 210 includes an upper substrate 211, a lower substrate 212, and a liquid crystal layer 213. Applicant respectfully asserts that no new matter is introduced by the Submission.

Accordingly, Applicant respectfully asserts that the recited feature of "the liquid crystal panel including an upper substrate, a lower substrate and a liquid crystal layer," as recited by independent claim 1, is clearly shown in amended FIG. 5 at region "B," as well as new drawing FIG. 16. In addition, Applicant respectfully asserts that the recited feature of "the control printed circuit board and a liquid crystal panel being disposed on opposite sides of the first frame," as also recited by independent claim 1, is clearly shown in amended FIG. 10.

For at least the above reasons, Applicant respectfully asserts that the Drawings comply with the requirements of 37 C.F.R. § 1.83(a), and the Drawings show every feature of the invention specified in the claims. Thus, Applicant respectfully requests that the objection to the Drawings under 37 C.F.R. § 1.83(a) be withdrawn, and that a Notice of Allowance be issued.

CONCLUSION

In view of the foregoing, Applicant respectfully requests reconsideration and timely allowance of the pending claims. Should the Examiner believe that there are any issues outstanding after consideration of this response, the Examiner is invited to contact Applicant's undersigned representative to expedite prosecution.
